Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ROHS
- Model Number: ZH101WUM-N80
- Minimum Order Quantity: 1 pieces
- Price: Negotiated
- Packaging Details: Carton Packing
- Delivery Time: 7-15 working days
- Payment Terms: T/T
- Supply Ability: 300k per month

Product Specification

- Hs Code: 9013803010
- Number Of Dots: 1920*3(RGB)*1200
- Contrast Ratio: 900:1(typ.)
- Operational Temperature: -20°C ~+70 °C
- Storage Temperature: -30 ~ +80°C
- Type: TFT,LCM
- Touch Screen: Depends On Specific Model
- Active Area: 216.8064(H)*135.504(V)
- Highlight: **IPS High Brightness TFT Display ,
High Brightness TFT Display 1920 x 1200 ,
tft lcd colour monitor 85 degree**

Product Description

10.1" IPS Panel Resolution 1920*1200 TFT Display Viewing Angle 85/85/85/85

Product Description:

The High Brightness TFT Display has an outline dimension of 229.46*149.10*4.70(mm), making it slim and lightweight, making it easy to integrate into a variety of products. It has an HS Code of 9013803010, which makes it easy to import and export to different countries.

With an operational temperature range of -20°C ~+70 °C, this display can function seamlessly in a wide range of environments. Its viewing angle of 80/80/80/80 ensures that the display can be viewed clearly from virtually any angle.

The High Brightness TFT Display has a luminance of 600nits, making it one of the brightest displays available in the market. This makes it perfect for use in outdoor applications where the display needs to be visible even in bright sunlight.

The main material used in the construction of this display is liquid crystal, which ensures that the display is both durable and reliable. The display is also energy-efficient, making it an eco-friendly choice for businesses and individuals who are conscious about their carbon footprint.

In conclusion, the High Brightness TFT Display is a top-of-the-line product that delivers exceptional performance and reliability. Its high resolution, IPS panel, and wide viewing angle make it perfect for use in a variety of applications, while its slim design and energy efficiency make it a practical and eco-friendly choice.

Features:

Product Name: High Brightness TFT Display

Color: 16.7M Color

Touch Screen: Depends On Specific Model

Type: TFT,LCM

Active Area: 216.8064(H)*135.504(V)

Outline Dimensions: 229.46*149.10*4.70(mm)

Luminance: 600nits

Display: 1920X1200

Technical Parameters:

Viewing Angle	80/80/80/80
Touch Screen	Depends On Specific Model

Storage Temperature	-30 ~ +80°C
Pitch	0.5mm
Type	TFT,LCM
Color	16.7M Color
Active Area	216.8064(H)*135.504(V)
Operational Temperature	-20°C ~+70 °C
Main Material	Liquid Crystal
Hs Code	9013803010

Applications:

This 10.1" TFT LCD display is suitable for a wide range of product application occasions and scenarios. It can be used in tablet LCDs, medical equipment, industrial control systems, and other electronic devices that require high brightness displays. The display is also ideal for outdoor use due to its high luminance. The display is easy to install and can be integrated into a wide range of electronic devices. In conclusion, OEM's 10.1" TFT LCD Display, model number ZH101WUM-N80, is a high-quality display that is suitable for a wide range of product application occasions and scenarios. The display's high brightness and easy integration make it an ideal choice for electronic devices that require a high-quality display. It is ROHS certified, has a minimum order quantity of 1 piece, and is available for purchase at a negotiated price.

HS Code: 9013803010

FAQ:

Q1: What is the brand name of the High Brightness TFT Display, and where is it made?

A1: The brand name of this display is OEM, and it is made in China.

Q2: What is the model number of the High Brightness TFT Display?

A2: The model number of this display is ZH101WUM-N80.

Q3: Does the High Brightness TFT Display come with any certifications?

A3: Yes, this display comes with ROHS certification.

Q4: What is the minimum order quantity for the High Brightness TFT Display?

A4: The minimum order quantity for this display is 1 piece.

Q5: What are the payment terms for purchasing the High Brightness TFT Display?

A5: The payment terms for purchasing this display are T/T.

Q6: What is the packaging detail of the High Brightness TFT Display?

A6: The packaging detail of this display is carton packing.

Q7: What is the delivery time for the High Brightness TFT Display?

A7: The delivery time for this display is 7-15 working days.

Q8: What is the supply ability of the High Brightness TFT Display?

A8: The supply ability of this display is 300k per month.

Q9: Is the price for the High Brightness TFT Display negotiable?

A9: Yes, the price for this display is negotiable.
