

3.97 Inch TFT LCD Touch Screen 480 X 800 TFT LCD Display Panel Touch IC GT911

Our Product Introduction

for more products please visit us on tft-displaylcd.com

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ROHS
- Model Number: FLR-T113CT400
- Minimum Order Quantity: 1 pieces
- Price: Negotiated
- Packaging Details: Carton Packing
- Delivery Time: 7-15 working days
- Payment Terms: T/T
- Supply Ability: 300k per month

Product Specification

- Backlight_Type: LED
- Luminance: 500
- Display Technology: A-Si TFT Active Matrix
- Touch IC: GT911
- Operation Temp: -20 ~ +70
- Resolution: 480x800
- Storage Temperature: -30 ~ +80
- Interface Type: RGB/MCU
- Highlight: 3.97 Inch TFT LCD Touch Screen ,
TFT LCD Touch Screen 480 X 800 ,
tft lcd display panel IC GT911

Product Description

3.97 Inch 480 X 800 Resolution 500 Nits Brightness TFT LCD Panel With Touch IC GT911

Product Description:

One of the best features of this TFT LCD Touch Screen is its wide viewing angle of 12 o'clock. This means that the display can be viewed clearly and accurately from a wide range of angles, making it ideal for use in various settings. Whether you are using it for personal or business purposes, this display is sure to meet your needs.

In addition to its excellent viewing angle, this product also has a luminance of 500, which means that it provides a bright and clear display even in low-light conditions. This makes it suitable for use in a wide range of environments, including indoor and outdoor settings.

The TFT LCD Touch Screen is also designed to operate in a wide range of temperatures, with an operation temperature range of -20 ~ +70. This means that it can be used in various weather conditions, making it ideal for use in applications such as outdoor kiosks and signage.

Overall, the TFT LCD Touch Screen is an excellent product that offers high-quality display capabilities for a wide range of applications. With its driver ic NT35510, wide viewing angle of 12 o'clock, luminance of 500, and reliable performance in a wide range of temperatures, it is sure to meet your needs and exceed your expectations.

Features:

Product Name: TFT LCD Touch Screen

Backlight Type: LED

Display IC: NT35510

Luminance: 500

Surface Treatment: Anti-Glare

Operation Temp: -20 ~ +70

Viewing Angle: 12 o'clock

50PIN RGB

Touch IC: GT911

Technical Parameters:

Backlight Type	LED
Ctp Structure	G+F+F

Interface Type	50PIN RGB/MCU
Display Technology	A-Si TFT Active Matrix
Touch IC	GT911
Storage Temperature	-30 ~ +80
Display IC	NT35510
Viewing Direction	12 O'clock
Operation Temperature	-20 ~ +70
Resolution	480x800

480x800 resolution, 50PIN RGB, capacitive touch screen

Applications:

One of the key features of this product is its excellent viewing angle, which ensures that users can easily see the display from a wide range of perspectives. The 12 o'clock viewing angle is particularly useful for applications where the display needs to be easily visible from a standing position, such as in retail settings or public information kiosks.

Another important attribute of this product is its 50PIN RGB interface, which allows for easy integration with a wide range of different devices and systems. This makes it a great choice for use in industrial control systems, medical equipment, and other applications that require a high level of connectivity and compatibility.

The FLR-T113CT400 also boasts an impressive 480x800 resolution, which ensures that images and text are displayed in crystal-clear detail. This makes it an ideal choice for use in digital signage systems, point-of-sale displays, and other applications where visual clarity is essential.

In addition to its high-quality display capabilities, this product also offers a range of other useful features and attributes. For example, it has a 5ms response time, which ensures that the display can keep up with fast-moving content and animations. It also has an anti-glare surface treatment, which helps to reduce reflections and minimize eye strain.

The FLR-T113CT400 is suitable for use in a wide range of different environments and scenarios, thanks to its excellent performance and durability. It has a wide operating temperature range of -20 to +70 degrees Celsius, making it suitable for use in both indoor and outdoor settings. It also has a high luminance of 500, which ensures that the display remains bright and clear even in bright sunlight.

With its ROHS certification, carton packing, and T/T payment terms, this product is an excellent choice for businesses and organizations that need a high-quality display solution that is both reliable and cost-effective. It has a minimum order quantity of just one piece, and a supply ability of 300k per month, making it a highly flexible and scalable solution for a wide range of different applications and industries.

In summary, the FLR-T113CT400 TFT LCD Touch Screen product is a highly versatile and efficient display solution that offers superior image clarity, excellent connectivity, and a range of useful features and attributes. Whether it's being used in a retail setting, an industrial control system, or a digital signage display, this product is sure to deliver outstanding performance and reliability.

FAQ:

Q: What is the brand name of this TFT LCD Touch Screen?

A: The brand name is OEM.

Q: What is the model number of this TFT LCD Touch Screen?

A: The model number is FLR-T113CT400.

Q: Where is this TFT LCD Touch Screen manufactured?

A: This TFT LCD Touch Screen is made in China.

Q: Does this TFT LCD Touch Screen have any certifications?

A: Yes, this TFT LCD Touch Screen is ROHS certified.

Q: What is the minimum order quantity for this TFT LCD Touch Screen?

A: The minimum order quantity is 1 piece.

Q: What is the packaging for this TFT LCD Touch Screen?

A: The packaging is carton packing.

Q: What is the delivery time for this TFT LCD Touch Screen?

A: The delivery time is 7-15 working days.

Q: What are the payment terms for this TFT LCD Touch Screen?

A: The payment terms are T/T.

Q: What is the supply ability for this TFT LCD Touch Screen?

A: The supply ability is 300k per month.

Q: How much is the price for this TFT LCD Touch Screen?

A: The price is negotiated.
