

## 2.4in Small TFT LCD Display 240x320 Pixels TFT LCD Display Module Backlight 3.3V LED

### Our Product Introduction

for more products please visit us on [tft-displaylcd.com](http://tft-displaylcd.com)

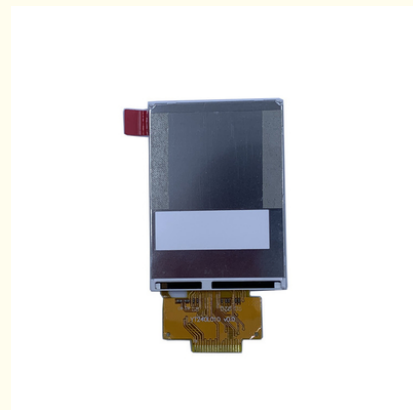

#### Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ROHS
- Model Number: ZH240L010
- Minimum Order Quantity: 1 pieces
- Price: Negotiated
- Packaging Details: Carton Packing
- Delivery Time: 7-15 working days
- Payment Terms: T/T
- Supply Ability: 300k per month

#### Product Specification

- Backlight Type: LED
- Storage Temperature: -30 To 80 Degrees Celsius
- Viewing Direction: 12 O'Clock
- Display Type: TFT
- Power Supply: 3.3V
- Resolution: 240x320 Pixels
- Interface Type: 18pin SPI
- Screen Size: 2.4 Inches
- Highlight: 2.4in small tft lcd display, 2.4in tft lcd panel, small tft lcd panel

## 2.4 Inch 240x320 Pixels TFT LCD Display Module With Backlight Power By 3.3V LED

### Product Description:

The monitor features an LED backlight, which provides bright and clear images while consuming minimal power. This makes it an excellent choice for applications where energy efficiency is a top priority. Additionally, the LED backlight enhances the contrast and color saturation, resulting in vibrant and crisp visuals that are easy on the eyes.

While the Petite TFT Monitor doesn't come with a touch screen, it is designed to be easily integrated with external touch panels. This makes it a versatile display solution that can be customized to meet your specific requirements. The viewing direction of 12 O'Clock ensures that the display is easily visible from most angles, making it ideal for use in public spaces and kiosks.

Whether you're looking for a display solution for a kiosk, vending machine, or other small-scale application, the Petite TFT Monitor is an excellent choice. With its compact size, rugged construction, and superior performance, this display provides a reliable and cost-effective solution for your display needs.

### Features:

Product Name: Small TFT LCD Display

Storage Temperature: -30 To 80 Degrees Celsius

Interface Type: 18pin SPI

Drive IC: ILI9341

Power Supply: 3.3V

Brightness: 250Cd/m2

This Miniature Thin Film Transistor Display, also known as TFT LCD Screen, is perfect for those looking for a petite TFT Monitor. Its features include:

### Technical Parameters:

Screen Size	2.4 Inches
Interface Type	18pin SPI
Brightness	250Cd/m2
Display Type	Little Thin Film Transistor LCD

Operating Temperature	-20 To 70 Degrees Celsius
Power Supply	3.3V
Contrast Ratio	500:1
Viewing Direction	12 O'Clock
Storage Temperature	-30 To 80 Degrees Celsius
Backlight Type	LED

## Applications:

Whether you're looking to add a display to a handheld device, incorporate a screen into a piece of industrial equipment, or create a custom dashboard for your car, the ZH240L010 is up to the task. It's ROHS certified, so you can be sure it meets the highest environmental standards, and it has a minimum order quantity of just one piece, so you can order exactly what you need.

In addition to its compact size and versatility, the ZH240L010 also boasts a number of other impressive features. With a brightness of 250Cd/m2, it's easy to read even in bright sunlight. And with a screen size of 2.4 inches, it's large enough to display important information, but small enough to fit into tight spaces.

Whether you're operating in extreme temperatures or need a display that can withstand harsh conditions, the ZH240L010 is up to the task. It has a storage temperature range of -30 to 80 degrees Celsius and an operating temperature range of -20 to 70 degrees Celsius, so it can handle just about anything you throw at it.

If you're looking for a high-quality TFT LCD screen that's small enough to fit in tight spaces, the ZH240L010 is the perfect choice. With a negotiated price, carton packing for easy shipping, and a supply ability of 300k per month, it's a great choice for businesses of all sizes. Contact us today to learn more!

## FAQ:

Q: What is the brand name of the Small TFT LCD Display?

A: The brand name of the Small TFT LCD Display is OEM.

Q: What is the model number of the Small TFT LCD Display?

A: The model number of the Small TFT LCD Display is ZH240L010.

Q: Where is the Small TFT LCD Display manufactured?

A: The Small TFT LCD Display is manufactured in China.

Q: Is the Small TFT LCD Display certified?

A: Yes, the Small TFT LCD Display is certified with ROHS.

Q: What is the minimum order quantity for the Small TFT LCD Display?

A: The minimum order quantity for the Small TFT LCD Display is 1 piece.

Q: What is the price of the Small TFT LCD Display?

A: The price of the Small TFT LCD Display is negotiated based on the order quantity.

Q: How is the Small TFT LCD Display packaged?

A: The Small TFT LCD Display is packaged in cartons.

Q: What is the delivery time for the Small TFT LCD Display?

A: The delivery time for the Small TFT LCD Display is 7-15 working days.

Q: What are the payment terms for the Small TFT LCD Display?

A: The payment terms for the Small TFT LCD Display are T/T.

Q: What is the supply ability of the Small TFT LCD Display?

A: The supply ability of the Small TFT LCD Display is 300k per month.
