Basic Information

- Place of Origin: China
- Brand Name: Without
- Certification: ROHS
- Model Number: ZH-T431BV1280-V0
- Minimum Order Quantity: 1
- Price: Contact with us
- Packaging Details: Carton packaging
- Delivery Time: 5-7 working days
- Payment Terms: T/T
- Supply Ability: 300k per month

Product Specification

- Interface Type: 15pin SPI
- Viewing Direction: IPS
- Display Resolution: 240x240pixels
- Backlight: 2P
- Brightness: 300 Cd/m2
- Lcd Active Area: 23.4(H) * 23.4(V)
- Display Size: 1.28 Inch
- Operating Temperature: -20 To 70 Degrees Celsius
- Highlight: 1.28 inch Round LCD Display,
Round TFT LCD Display,
small round lcd display

Product Description

Product Description:

The 2P backlight design ensures that the display is evenly lit, providing a comfortable viewing experience. The color configuration of the display is R.G.B Vertical Stripe, providing a high-quality and sharp image.

Our Round LCD Display is designed with a 15pin SPI interface type, making it easy to integrate into your existing system. It is also designed for easy installation, making it a great choice for those who want a hassle-free experience.

The Round LCD Display is perfect for a wide range of applications, including wearables, smart home devices, and industrial control systems. With its IPS viewing direction, it offers a clear display from any angle, making it ideal for use in situations where multiple people need to view the same display.

Overall, if you are looking for a high-quality Round LCD Display with excellent viewing direction and a clear display, then our Round LCD Display is the ideal choice. With its 2P backlight, R.G.B Vertical Stripe color configuration, and 15pin SPI interface type, it is a versatile and reliable display that can be used in a variety of applications.

Technical Parameters:

Technical Parameter	Value
Interface Type	15pin SPI
Display Resolution	240x240pixels
Lcd Active Area	23.4(H) * 23.4(V)
Operating Temperature	-20 To 70 Degrees Celsius
Touch Screen	No
Backlight Type	2P
Brightness	300 Cd/m2
Display Size	1.28 Inch
Color Configuration	R.G.B. Vertical Stripe
Viewing Direction	IPS
Storage Temperature	N/A

Applications:

One of the key features of this LCD display is the driver IC that ensures high-quality images and graphics. This makes it perfect for use in applications that require high-resolution displays, such as medical equipment, aviation instruments, and automotive displays.

The viewing direction of Without ZH-T431BV1280-V0 is vertical, which means it is suitable for use in applications that require portrait orientation. This makes it perfect for use in digital signage, advertising displays, and other similar applications.

The LCD display is also suitable for use in consumer electronic devices such as smartwatches, fitness trackers, and other wearable devices. Its small size and high-resolution image make it perfect for these types of applications.

Other applications of Without ZH-T431BV1280-V0 include industrial control systems, home automation devices, and gaming consoles. It is also suitable for use in outdoor environments, thanks to its high brightness and excellent image quality.

In conclusion, Without ZH-T431BV1280-V0 is a versatile and high-quality round LCD display suitable for use in different industries and applications. Its key features, including the driver IC and vertical viewing direction, make it perfect for use in applications that require high-resolution displays and portrait orientation. Its small size and high brightness make it suitable for use in consumer electronic devices, while its rugged design makes it perfect for use in outdoor environments.

FAQ:

Q: What is the brand name of this Round LCD Display?

A: The brand name of this Round LCD Display is Without.

Q: What is the model number of this Round LCD Display?

A: The model number of this Round LCD Display is ZH-T431BV1280-V0.

Q: Where is this Round LCD Display manufactured?

A: This Round LCD Display is manufactured in China.

Q: What is the size of this Round LCD Display?

A: The size of this Round LCD Display is not specified. Please refer to the product specifications for more information.

Q: What is the resolution of this Round LCD Display?

A: The resolution of this Round LCD Display is not specified. Please refer to the product specifications for more information.
